

ABE 363

- Y-forked energy absorber with semistatic rope.
- Designed to withstand falls.
- Reduces drop impact below 6 kN.
- Rope ends sewn and covered with polyethylene material, abrasion resistant guards.
- Hooks with 50mm opening.

In addition to the models forked under the VG11.063:2014, additional resistance test for energy absorbers with 2 forked strings.

Norm	EN355, EN362, VG11.063		
Length	100cm	140cm	180cm
Weight	1,12 kg	1,53 kg	1,9 kg
Diameter	11 mm		
Static resistance	25 kN		
Stopping distance	1 m		
Lifetime (years)	10 of use + 2 of storage		

Materials	
Rope	Polyamide
Absorber	Polyester
Conectors	Steel
